

## PUBLIC INVOLVEMENT

**GUNDA**  
CORPORATION

AN  
COMPANY  
**ARDURRA**  
COLLABORATE. INNOVATE. CREATE.

Gunda Corporation provides a robust public involvement program to support clients through the project development and design process. The GUNDA team provides an interactive approach to public involvement that requires community engagement throughout the duration of the project.

GUNDA promotes a public involvement effort based on a community partnership and includes multiple public involvement approaches to engage the community and support partnerships. GUNDA employs a variety of techniques to maximize public participation and provide an interactive process for reaching out, informing, and soliciting input. Both traditional public involvement meetings and innovative techniques are incorporated into a multiphased public involvement program.

Based on the client needs GUNDA's public involvement program may include any number of the following elements; facilitating stakeholder workshops, conducting public meetings, managing a project website, preparation of project newsletters, implementing project surveys, preparation of presentation and handout materials, developing press releases, and most importantly regular communication with the public, area agencies and community partners.
